

Saturday April 27

At the park • Everyone is welcome

**08.30–
10.30 a.m**

Bird walk

Charles Swift will share his superb knowledge of the park's birds and where to find them. (This walk is in conjunction with the City Nature Challenge bioblitz. *)

Bring: binoculars, water, sturdy walking shoes

Optional: Phone with these apps: Merlin Bird ID, iNaturalist (set up your account before the walk)

**10.00 a.m.–
noon**

Bluebird planting

Help plant more than 2,000 native grass and wildflower seedlings grown by students of habitat restoration at the University of Idaho. The plants will attract insects to nourish nearby nesting bluebirds.

Bring: Water, gloves

Optional: Soil knife

**2:00–3:30
p.m**

Plant walk

Visit forest and prairie habitats to observe the park's wide diversity of plant life. University of Idaho ecologists Eva Strand and Karen Launchbaugh will be your guides. (This walk is held in conjunction with the City Nature Challenge bioblitz. *)

Bring: Water, sturdy walking shoes

Optional: Phone with iNaturalist app (set up your account before the walk.)

***City Nature Challenge bioblitz**

Observations from the plant and bird walks will be logged into iNaturalist. Anyone wanting to do data logging should download iNaturalist to their phone and create an account before arriving at the park. Join the "Palouse Region" event within iNaturalist. You can also participate in the bioblitz on your own, April 26–29. Go to [iNaturalist.org](https://www.inaturalist.org) for details.
